- Past Owner and President of Quality Inspection & Testing, Inc.
- Past Owner and President of Bluewater Group of LA
- Current VP of Operations / Radiation Safety Officer / HSE manager – Quality Inspection & Testing, Inc.
- Company Certified Level III in Radiographic Testing, Magnetic Particle Testing, Penetrant Testing, and Ultrasonic Testing
- Certified Welding Inspector (Certificate #96120481) – since December 1996
- Certified API-653 Inspector (Certificate #2246) – since April 1997
- Certified API-1169 Inspector (Certificate #89697) – since June 2019
- Certified API-2X (RP2X) – UT
- Certified PMI Operator
- Louisiana IRRSP Card (Radiation Safety)
- QI&TI Corporate Radiation Safety Officer
- Certified Film Auditor
- HSE Manager

PROFESSIONAL EXPERIENCE

January 2022 - Practical Engineering Solution – President Inspection & Construction Division

September 2020 to December 2021 – Quality Inspection & Testing, Inc.

After completion of the sale I remained with the company. I am currently the VP of Operations. Radiation Safety Officer, HSE Manager and company Level III in RT, MT, UT, & PT.

May 2012 to September 2020 – Owner of Bluewater Group of LA

Bluewater Group is a full-service Project Management and Inspection Company providing Project Managers, Construction Managers, Chief Inspectors, Certified Welding Inspectors, NACE Coating Inspectors, Civil & Utility Inspectors, etc. Completed all EPC contracts as required for several customer,

March 2001 to September 2020 – Owner of Quality Inspection & Testing, Inc.

QI&TI is a full service Non-Destructive and Destructive Testing company located in New Iberia, Louisiana. I was the Company certified Level III, Radiation Safety Officer, and HSE Manager. I performed all facets of inspection including RT, UT PT, MT, LT, VT, PMI, HT, and Stress Relieving, wrote and performed all welding procedure qualifications and welders tests, performed outside sales, and oversaw the growth of the company before selling it in September of 2020.

January 2005 to Present

Performed and provided personnel to Beaird Company in Shreveport, La. performing Ultrasonic Testing, Magnetic Particle Testing, Visual Testing and Radiographic Testing

October 2004 to July 2005 Fairwinds International

Performed Visual Inspection for the following clients: Denbury Resources and Energy Partners LTD

- Reviewed all Denbury Resources and Energy Partners LTD Specifications
- Reviewed all fabrication contractors welding procedures, welders qualifications
- Witnessed fabrication, NDT, and all Hydro Testing

September to November 2004 Durham Inspection

Performed Visual Inspection for Daewoo (Ball Valve Assembly and Testing)

- Reviewed all vendor (TK Valve) assembly and testing procedures, MTR's, valve coating procedures, etc.
- Witnessed all Hydro and Pressure Testing
- Performed Visual Inspection of all coatings and packaging for shipment

Performed Visual Inspection for SNC Lavalin (Pressure Safety Valves)

- Reviewed all SNC Lavalin Company specifications
- Reviewed all vendor (Dresser Flow Solutions) assembly and testing procedures, MTR's, valve coating procedures, etc.
- Performed Visual Inspection of all coatings and packaging for shipment

Performed Visual Inspection for Daewoo (Flex Leg Guides)

- Reviewed all Daewoo/Chevron-Texaco Specifications
- Reviewed all fabrication contractors welding procedures, welders qualifications
- Witnessed fabrication and NDT testing of all welding
- Performed dimensional checks, weld profile checks, etc.
- Witnessed Hydro Testing for Daewoo (Fire Water Column Pipe)
- Reviewed all Daewoo/Chevron-Texaco Specifications
- Reviewed all contractors (DXP/Sepco) specifications
- Reviewed all Hydro Test equipment calibrations

- Witnessed 4 hour Hydro Test of the Fire Water Column Suction Piping

June to August 2004 Fairwinds International

Performed Visual Inspection for Denbury Resources (HP and LP Separators)

- Reviewed all Welding Procedures, Welder Certifications, MTR's, NDE Company Procedures and Certifications
- Witnessed welding of both the Low Pressure and High Pressure Separators
- Reviewed Radiographic Testing Film
- Witnessed Ultrasonic Testing of all Nozzles

May 2004 Gator Inspection Services

Performed Visual Inspection and Ultrasonic Testing for BP Oil/Allseas

- Witnessed welding of Start-Up Head and Pull-In Head on the BP Oil Pipeline-Endymion
- Ultrasonic Testing of the Start-Up Head on the BP Oil Pipeline-Endymion

April 2004 Durham Inspection Service

Performed CWI duties for DUCO, Inc. in Houston, Texas.

- Verified all Welding Procedures, Welder Certifications, Welding Equipment, etc.
- Witnessed all Welding and Inspection
- Witnessed all PWHT and Machining of Fabricated items

*From August 1989 to March 2004, I was employed with *Inspection Specialists, Inc.* Listed below are the various positions I have held:

1997-2004 Western Division Manager, *Inspection Specialists, Inc.*

*I successfully opened Inspection Specialists, Inc.'s first satellite office in Lafayette, Louisiana.

- Office Manager – Responsible for all employees, paperwork, etc.
- Personnel Director – Responsible for hiring of all personnel.
- Outside Sales – Responsible for all outside sales calls.
- Radiation Safety Officer – Implemented the Radiation Safety Program as the Western Division Manager in 1997 under the corporate RSO. Assisted the corporate RSO as needed to enforce compliance. Maintained all required documentation such as employee dosimeter records, radiation inventory control, daily survey reports, quarterly field audits, quarterly Radioactive Camera maintenance, maintenance of calibration standards and records, Government liaison within the state of Louisiana and Arkansas (onsite audits by DEQ), and periodic refresher training and testing.
- Estimator – Responsible for all bids and price quotes.

*In addition to the duties listed above, I maintained my skills in radiographic testing, ultrasonic testing, magnetic particle testing, liquid penetrant testing, chemical analysis and in performing CWI duties. Listed below are some of the larger projects I worked on while employed with Inspection Specialists, Inc.:

- SNC LAVALIN – 2200MW Power Plant (UT, RT, PMI)
- National Oil Well Drilling Rig – Angola Africa Block 14 (UT, RT, MT)
- Mallard Drilling Rig 75 (CWI, UT, RT, MT)
- Mead Wesvaco Vessels (CWI)
- Oil & Gas Storage Tanks (20 year re-certification – API 653)
- DOT Storage Tanks (CWI)
- Numerous ABS, DNV, and BV Ultrasonic Thickness Survey

1996-1997 Senior Laboratory Technician, *Inspection Specialists, Inc.*

*I was manager and senior lab technician of Inspection Specialists, Inc.'s destructive testing laboratory in Marrero, La.

- Writing and Testing Welding Procedures
- Testing Welders
- Chemical Analysis
- Hardness Testing (Vickers, Rockwell, Brinell)
- Also Performed API 653 Inspections.

1990-1996 Level II Technician, *Inspection Specialists, Inc.*

*Certified in Radiographic Testing, Ultrasonic Testing, Magnetic Particle Testing, Penetrant Testing, Visual Testing, and Positive Material Identification. I performed non-destructive testing on pressure vessels, piping, and structural steel in chemical plants, refineries, vessel shops and fabrication yards. UT surveys were performed in accordance with ABS, DNV, and BV specifications.

1989-1990 Radiographic Assistant, *Inspection Specialists, Inc.*

EDUCATION

Louisiana State University, 1988-1989
Lutheran High School, Graduate 1988

TECHNICAL EDUCATION

School

40 Hour Radiation Safety Training – 1989
Inspection Specialists, Inc. – RT – 1989-1990
Inspection Specialists, Inc. – MT – 1990
Inspection Specialists, Inc. – PT – 1990
Inspection Specialists, Inc. – UT - 1992

Spectro Analytical – Positive Material Identification – 1996

Dave Mandina's School of Ultrasonics Refresher – 1998

Radiation Safety Officer Training – 1998

Source Retrieval Training - 1998

Hellier Consulting-Level III Training– 2002

PROFESSIONAL MEMBERSHIPS

American Petroleum Institute
